POR01 & POR02

**Empower Your Edge:**  
Hyperlocal To Hyperscale Data Centers

## Portland EdgeConneX Data Center®

The Portland Edge Data Center® (EDC) campus houses two purpose-built, Tier-3 designed facilities with superior operational reliability to support cloud, content, network and enterprise customers. It is precisely located in order to provide a secure colocation solution for customers desiring to deliver content and applications to local-market consumers with the lowest possible latency. Partnering with network and cable operators at the local level, our carrier neutral campus guarantees the shortest and fastest routes for delivering content and cloud applications to local market subscribers (consumer and enterprise) and Internet customers.

At EdgeConneX, we work with our customers throughout the full lifecycle, to deliver capacity, connectivity, and visibility, wherever and whenever they need it.

Our creative approach facilitates innovative distribution models that support your needs at the Edge of the Network. This is the reason that the world's leading and most influential ILEC, Cloud, Content, Network, Wireless, and Enterprise companies trust EdgeConneX to deliver their data.

AWS Direct Connect and Google Cloud Interconnect cloud on-ramps are available locally in our Portland campus data centers, as well as other multi-cloud hybrid solutions for enterprises through our technology and solution partners. In addition to AWS and Google, customers can access leading CSP's like Microsoft, Oracle, Salesforce, Nutanix, IBM and more. At EdgeConneX, we work with our customers throughout the full life-cycle, to deliver capacity, connectivity, and visibility, wherever and whenever they need it.

## EdgeConneX Benefits

### Capacity

State of the art data centers with the flexibility to support deployments ranging from a single rack, to large custom cages or pods, all the way to build to suit data centers any of which can further scale to meet future needs for growth.

### Connectivity

Many leading NSP's and MSO's are deployed in our Portland data centers and available for interconnection. AWS Direct Connect and Google Cloud Interconnect cloud on-ramp services are available, as well as other SDN and IX solutions like Megaport, PacketFabric, NetFoundry, and NWAX.

### Capability

Purpose-built Tier-3 designed facilities with superior operating reliability, high-density power, and carrier-neutral support to satisfy any customers challenges and demands.

### Cloud

Multi-hybrid cloud solutions for enterprises can be supported locally in Portland through our technology and solution partners meaning customers can locally access leading CSP's like AWS, Microsoft, Google and Oracle directly from our Portland campus.

### Cooling

These facilities have robust and redundant power and cooling to support any application, where temperature and humidity is monitored, controlled and managed to industry standards.

### Customer Experience

We aim to deliver a premium customer experience and proximate data center solutions, allowing you to deliver a premium experience to your own customers.

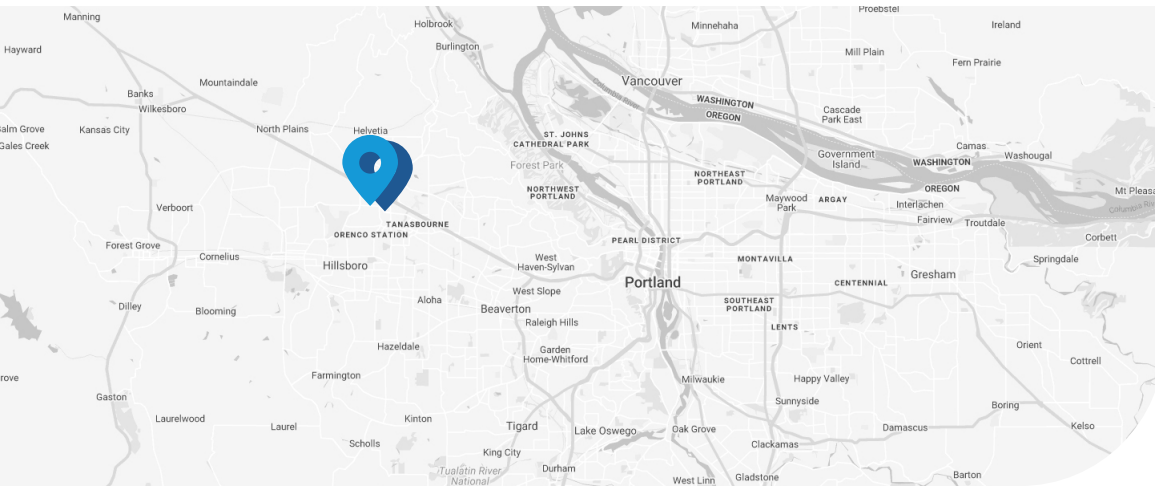

### Compliance

Our facilities are SOC2 Type 2, PCI DSS and HIPAA compliant.

### Partners

Our world-class partners help EdgeConneX deliver the combination of solutions your business needs.
