The Toronto EdgeConneX Edge Data Center® (EDC) is a purpose-built, Tier 3 designed facility with superior operational reliability to support cloud, content, network and enterprise customers. It is precisely located in order to provide a secure colocation facility for customers desiring to deliver content and applications to local-market consumers with the lowest possible latency. Partnering with network and cable operators at the local level, our carrier neutral facility guarantees the shortest and fastest routes for delivering content and cloud applications to local market subscribers (consumer and enterprise) and Internet customers.

At EdgeConneX, we work with our customers throughout the full lifecycle, to deliver capacity, connectivity, and visibility, wherever and whenever they need it. Our creative approach facilitates innovative distribution models that support your needs at the Edge of the Network. This is the reason that the world’s leading and most influential ILEC, Cloud, Content, Network, Wireless, and Enterprise companies trust EdgeConneX to deliver their data.

**EdgeConneX Benefits**

- **Capacity**
  State of the art data center with the flexibility to support deployments ranging from a single rack, to a large custom cage or pod, all the way to a build to suit data center any of which can further scale to meet future needs for growth.

- **Connectivity**
  Many leading NSP’s and MSO’s are deployed in our Toronto Data Center and available for interconnection.

- **Capability**
  Purpose-built Tier-3 designed facilities with superior operating reliability, high-density power, and carrier-neutral support to satisfy any customers challenges and demands.

- **Cloud**
  Multi-Cloud access solutions for enterprises may be supported locally through our technology and solution partners meaning customers can locally access leading CSP’s directly from our Toronto Data Center.

- **Cooling**
  The facility has robust and redundant power and cooling to support any application, where temperature and humidity is monitored, controlled and managed to industry standards.

- **Customer Experience**
  We aim to deliver a premium customer experience and proximate data center solutions, allowing you to deliver a premium experience to your own customers.

- **Compliance**
  The TOR01 data center is SOC 2 Type 2, ISO 27001 and PCI DSS compliant.

- **Partners**
  Our world-class partners help EdgeConneX deliver the combination of solutions your business needs.
Technical Specifications & Configuration

**Space**
- 38,900 sq ft facility
- 18,000 sq ft of existing raised floor for tenant racks
- Within 20 km of downtown TOR & 30 km of Toronto Pearson International Airport
- Customer work space available
- Space available for secure customer storage
- WiFi network access and cell phone repeaters/boosters throughout the facility

**Power**
- 1.1 MW N+1; planned for 3 MW
- Concurrently maintainable power in a minimum of an N+1 configuration to include:
  - PDU - UPS - Generators
  - Capable of 20+kw per cabinet
  - Capable of 600+ watts per sq ft
- Ghost space not required for cooling power dense installations
- Real-time branch circuit monitoring

**Cooling**
- Temperature and humidity monitored, controlled, and managed to industry standards
- 30 inch raised/under floor forced air plenum
- N+1 CRACs located in separate suites, maximizing customer-designated areas

**Security**
- Multi-stage security containment systems that use PIN and live video authentication
- Mantraps and strictly enforced protocols regarding entry access
- 24/7 Color CCTV/video surveillance and >90-day online video storage
- Interior managed security zones
- National network operations center for security management
- 24/7 NOC services

**Fire Suppression**
- Pre-action, zoned dry-pipe sprinkler systems with zoned maintenance aisles and separate suites

**Network**
- Building POEs are diverse, with a variety of fiber conduits to physically diverse MMR’s
- Beanfield, Bell Canada, Cogeco, Cogent, Hurricane Electric, Zayo
- Interconnection services available

**Optional Services**
- Remote hands services for break fixes, configuration, and troubleshooting
- EdgeConneX Services: design, build, implement, and maintain your equipment infrastructure
- EdgeOS, our next generation data center operating system provides real-time visibility, including ticketing and SLA management for all EDC locations
