**Empower Your Edge:**  
Local Data Center, Global Platform

## Seattle EdgeConneX Data Center®

The Seattle EdgeConneX Edge Data Center® (EDC) has been purpose-built and precisely located in order to provide a secure colocation facility for customers wishing to deliver content and applications to local-market consumers, with the lowest possible latency. Partnering with network and cable operators at the local level, our carrier neutral facility guarantees the shortest and fastest routes for delivering content to local market subscribers (consumer and enterprise) and Internet customers.

At EdgeConneX, we work with our customers throughout the full life-cycle, to deliver capacity, connectivity, and visibility, wherever and whenever they need it.

Our creative approach facilitates innovative distribution models that support your needs at the Edge of the Network. This is the reason that the world's leading and most influential ILEC, Cloud, Content, Network, Wireless, and Enterprise companies trust EdgeConneX to deliver their data.

### EMPOWER YOUR EDGE

- For Content & Digital Media
- For Network & Mobile
- For Cloud & IoT
- For Your Business

**SEA01:** High-density power

**SEA01:** Network Diversity

**SEA01:** Within 9 miles from downtown Seattle

## EdgeConneX Benefits

### Capacity

State of the art data center with the flexibility to support deployments ranging from a single rack, to a large custom cage or pod, all the way to a build to suit data center any of which can further scale to meet future needs for growth.

### Connectivity

Megaport's SDN platform enables private, on-demand, elastic bandwidth provisioning for virtual connections to leading global cloud providers including AWS, Microsoft, Oracle and others.

### Capability

Purpose-built Tier-3 designed facilities with superior operating reliability, high-density power, and carrier-neutral support to satisfy any customers challenges and demands.

### Cloud

Access to Microsoft Azure ExpressRoute and OracleCloud extend from the EDC into the cloud over a direct private connection to access their suite of services.

### Cooling

The facility has robust and redundant power and cooling to support any application, where temperature and humidity is monitored, controlled and managed to industry standards.

### Customer Experience

We aim to deliver a premium customer experience and proximate data center solutions, allowing you to deliver a premium experience to your own customers.

### Compliance

Our facilities are SOC2 Type 2, PCI DSS and HIPAA compliant.

### Partners

Our world-class partners help EdgeConneX deliver the combination of solutions your business needs.

**SEA01:**  
 3425 S 116th Street,  
 Building 6, Suite 133  
 Seattle, WA 98168

## Technical Specifications & Configuration

### Space

- 59,300 sq ft facility
- 6,500 sq ft of raised floor for tenant racks
- Maintains ROFR on adjacent spaces
- Within 9 miles from downtown SEA and 5 miles from Seattle-Tacoma International Airport
- Customer work space available
- Space available for secure customer storage
- WiFi network access and cell phone repeaters/boosters throughout the facility

### Power

- Concurrently maintainable power in a minimum of an N+1 configuration to include:
  - PDU - UPS - Generators
- Capable of 20+kW per cabinet
- Capable of 600+ watts per sq ft
- Ghost space not required for coolingpower dense installations
- Real-time branch circuit monitoring

### Cooling

- Temperature and humidity monitored, controlled and managed to industry standards
- 30 inch raised/under floor forced air plenum
- N+1 CRACs located in separate suites, maximizing customer-designated areas

### Security

- Multi-stage security containment systems that use PIN and live video authentication
- Mantraps and strictly enforced protocols regarding entry access
- 24/7 Color CCTV/video surveillanceand >90-day online video storage
- Interior managed security zones
- National network operations centerfor security management
- 24/7 NOC services

### Fire Suppression

- Pre-action, zoned dry-pipe sprinkler systems with zoned maintenance aisles and separate suites

### Network

- Building POEs are diverse, with a variety offiber conduits to physically diverse MMR's
- Comcast, Integra, Level 3, XO and Zayo
- Interconnection services available

### Optional Services

- Remote hands services for break fixes, configuration and troubleshooting
- EdgeConneX Services: design, build, implement and maintain your equipment infrastructure
- EdgeOS, our next generation data center operating system provides real-time visibility, including ticketing and SLA management for all EDC locations
