Las Vegas EdgeConneX Data Center®

The Las Vegas EdgeConneX Edge Data Center® (EDC) has been purpose-built and precisely located in order to provide a secure colocation facility for customers wishing to deliver content and applications to local-market consumers, with the lowest possible latency. Partnering with network and cable operators at the local level, our carrier-neutral facility guarantees the shortest and fastest routes for delivering content to local market subscribers (consumer and enterprise) and Internet customers.

At EdgeConneX, we work with our customers throughout the full life-cycle, to deliver capacity, connectivity, and visibility, wherever and whenever they need it. Our creative approach facilitates innovative distribution models that support your needs at the Edge of the Network. This is the reason that the world’s leading and most influential ILEC, Cloud, Content, Network, Wireless, and Enterprise companies trust EdgeConneX to deliver their data.

Las Vegas Market

LAS01

Empower Your Edge: Hyperlocal To Hyperscale Data Centers

EMPOWER YOUR EDGE

- For Content & Digital Media
- For Network & Mobile
- For Cloud & IoT
- For Your Business

LAS01: High-density power

LAS01: Network Diversity

LAS01: Within 6 miles from downtown Las Vegas

EdgeConneX Benefits

Capacity
State of the art data center with the flexibility to support deployments ranging from a single rack, to a large custom cage or pod, all the way to a build to suit data center any of which can further scale to meet future needs for growth.

Connectivity
Many leading NSP’s and MSO’s are deployed in our Las Vegas Data Center and available for interconnection.

Capability
Purpose-built Tier-3 designed facilities with superior operating reliability, high-density power, and carrier-neutral support to satisfy any customers challenges and demands.

Cloud
Multi-Cloud access solutions for enterprises may be supported locally through our technology and solution partners meaning customers can locally access leading CSP’s directly from our Las Vegas Data Center.

Customer Experience
We aim to deliver a premium customer experience and proximate data center solutions, allowing you to deliver a premium experience to your own customers.

Compliance
The LAS01 data center is SOC2 Type 2, PCI DSS and HiPAA compliant.

Partners
Our world-class partners help EdgeConneX deliver the combination of solutions your business needs.

**Space**
- 30,250 sq ft facility
- 3,600 sq ft of raised floor for tenant racks
- Within 6 miles from downtown LAS and 5 miles from McCarran International Airport
- Customer work space available
- Space available for secure customer storage
- WiFi network access and cell phone repeaters/boosters throughout the facility

**Power**
- Concurrently maintainable power in a minimum of an N+1 configuration to include:
  - PDU - UPS - Generators
  - Capable of 20+kW per cabinet
  - Capable of 600+ watts per sq ft
  - Ghost space not required for cooling/power dense installations
- Real-time branch circuit monitoring

**Cooling**
- Temperature and humidity monitored, controlled and managed to industry standards
- 30 inch raised/under floor forced air plenum
- N+1 CRACs located in separate suites, maximizing customer-designated areas

**Security**
- Multi-stage security containment systems that use PIN and live video authentication
- Mantraps and strictly enforced protocols regarding entry access
- 24/7 Color CCTV/video surveillance and >90-day online video storage
- Interior managed security zones
- National network operations center for security management
- 24/7 NOC services

**Network**
- Building POEs are diverse, with a variety of fiber conduits to physically diverse MMR’s
- Cogent, Cox, Electric Lightwave, Hurricane Electric, WhiteSky, Level 3, Zayo
- Interconnection services available

**Optional Services**
- Remote hands services for break fixes, configuration and troubleshooting
- EdgeConneX Services: design, build, implement and maintain your equipment infrastructure
- EdgeOS, our next generation data center operating system provides real-time visibility, including ticketing and SLA management for all EDC locations
