DBU01 & DBU02 Data Sheet

Empower Your Edge: Hyperlocal To Hyperscale Data Centers

EdgeConneX is a global leader in data center development and delivery, with over 40 data centers in more than 30 markets worldwide.

Our Dublin EdgeConneX campus is a large land banked parcel that currently houses two purpose-built data centers with potential for future expansion.

Our creative approach facilitates innovative distribution models that support your needs at the Edge of the Network. This is the reason the five largest businesses in the world by market cap all trust EdgeConneX to provide critical data center capacity and facilities worldwide.

Dublin is a hub for business and a pivotal point for Internet and Cloud connectivity. And EdgeConneX has a proven track record of delivering data centers at any scale, on time, on budget, and with the cooperation and support of in-market community and regulatory leaders.

Contact EdgeConneX today to set up a campus tour and learn more about the EdgeConneX Dublin Data Center Campus.

EMPOWER YOUR EDGE

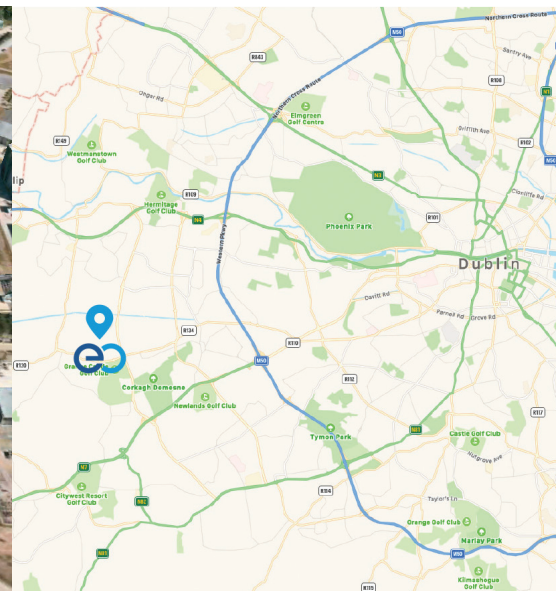

EdgeConneX Dublin Data Center Campus houses two purpose-built data centers

DUB01: Built-to-Order facility

 **Dublin Campus: Grange Castle Business Park, Old Angor Rd., Dublin, Ireland**

Campus Snapshot

Technical Specifications & Configuration

Space

- Campus: 2 data centers, with potential for future expansion
- Within 12 km of downtown Dublin and 17.4 km of Dublin Airport
- Customer work space available
- Space available for secure customer storage
- WiFi network access and cell phone repeaters/boosters throughout the facility

Power

- **DUB01:** Built to Order
- **DUB02:** 2.8MW
- Concurrently maintainable power in a minimum of an N+1 configuration to include:
 - PDU - UPS - Generators
- Capable of 20+ kW per cabinet
- Capable of 600+ watts / sq m2
- Ghost space not required for coolingpower dense installations
- Real-time branch circuit monitoring

Cooling

- Temperature and humidity monitored, controlled, and managed to industry standards
- 1m raised/under floor forced air plenum
- N+1 CRACs located in separate suites, maximizing customer-designated areas

Security

- Multi-stage security containment systems that use PIN and live video authentication
- Mantraps and strictly enforced protocols regarding entry access
- 24/7 Color CCTV/video surveillance
- Interior managed security zones
- National network operations centerfor security management
- 24/7 NOC services

Fire Suppression

- Pre-action, zoned dry-pipe sprinkler systems with zoned maintenance aisles and separate suites

Network

- Building POEs are diverse, with a variety offiber conduits to physically diverse MMR's
- euNetworks, Aurora Telecom, Eir, Colt, Level 3, Hibernia, Aquacomms, BT Ireland near-net
- Interconnection services available including fiber and copper

Optional Services

- Remote hands services for break fixes, configuration, and troubleshooting
